Screen Every Child at Every Immunization Visit!

ASK EVERY PARENT/ GUARDIAN:

What is your child's insurance coverage?

- ☐ Enrolled in the state Medicaid Program
- □ Does not have health insurance
- ☐ Has health insurance, but there is a cap or it does not cover vaccines or immunization services
- ☐ Has private health insurance that covers immunizations

Is your child?

☐ American Indian or Alaska Native

Administration Fee Billing:

- Private health plans: bill the maximum allowable administration fee.
- Medicaid enrolled: bill the allowable Medicaid rate.
- Underinsured, uninsured, American Indian and Alaska Native: bill the CMS cap.

Screen and Document! Your patient's Vaccines for Children (VFC) status

Using Paper Records

- Documentation may be incorporated in the:
- Paper demographic or face sheet,
- Medical history or billing sheets generated by the practice,
- ♦ Vaccine Administration Record (VAR) or
- ◆ A screening form supplied by the Washington State Department of Health.
- The form may be kept in the patient's medical record (chart) or in a separate file.

Using CHILD Profile Immunization Registry

- The patient's status may be added to or updated in the patient's record in the CHILD Profile Immunization Registry.
- Additional documentation is not required if the patient's status is reviewed in CHILD Profile at every visit and updated as needed.

Using electronic billing system or electronic medical record (EMR)

- Documentation may be incorporated in the:
 - Patient's electronic medical record
 - A billing record, or
 - A separate database
- The electronic record must be approved for screening by your local health jurisdiction.

Questions about screening your patients for VFC status?

Ask your local health jurisdiction.
